

METWEST
INDUSTRIES PVT. LTD.

COMPANY PROFILE

www.metwestind.com

ABOUT US

- Manufacturer & Exporter Of Precision Metal Components
- 10+ Years Of Production Expertise
- Zinc Die-Cast Parts, Brass Fittings & Machined Components
- Serving Sanitaryware, Plumbing, Hardware, Electrical & Automotive Sectors
- Skilled Workforce With Modern Manufacturing Processes
- Strong Quality Control & Continuous Improvement
- Focus On Long-Term, Transparent Partnerships

VISION

- To Be Recognised Globally As A Trusted And Leading Supplier
- Follow Ethical, Transparent, And Customer-Focused Business Practices
- Deliver Professional Service, Timely Support, And Customised Solutions
- Drive Continuous Innovation And Operational Efficiency
- Integrate Sustainable, Eco-Friendly Technologies
- Contribute Positively To The Industry, Community, And Environment

QUALITY

Our Commitment to Excellence

At MetWest Industries, quality is the cornerstone of our operations. Every stage of production, from raw material selection to final inspection, follows stringent quality control procedures supervised by our team with high skillset.

Our facilities are equipped with advanced testing systems, including dimensional accuracy checks, non-destructive testing, and detailed visual inspection.

Through ongoing process improvement and adherence to international standards, we ensure our products consistently exceed customer expectations.

WHY CHOOSE METWEST

Advanced Zinc
Die-Casting And
Precision Metal
Fabrication.

Reliable Delivery
Schedules With
Commitment To
Deadlines.

Skilled Workforce
Ensuring
Consistent Quality.

Wide Product Range
For Multiple
Industrial Sectors.

Strong After-Sales
Support For
Long-Term
Satisfaction.

International-Standard
Quality Control
Systems.

Fully Equipped
Jamnagar Facility
For High-Volume &
Custom Manufacturing.

Competitive Pricing
With Flexible
Payment And
Packaging Solutions.

MANUFACTURING PROCESS

01. MATERIAL SELECTION

Premium-grade raw materials are carefully selected to ensure consistent quality, strength, and compliance with customer specifications.

02. MELTING & ALLOYING

Raw materials are melted under controlled conditions and alloyed with precise elements to achieve the required chemical composition and mechanical properties.

03. PRECISION CASTING

Molten metal is cast into precision-engineered moulds using advanced die casting processes to produce high-quality, dimensionally accurate components.

04. TRIMMING & FETTLING

Excess material, runners, and burrs are removed using advanced trimming and fettling processes to ensure smooth surfaces and prepare components for further operations.

METWEST
INDUSTRIES PVT. LTD.

05. PRECISION MACHINING

Advanced CNC and VMC machining ensures tight tolerances, precise dimensions, and superior component accuracy.

06. SURFACE FINISHING

Components undergo polishing, buffing, and surface preparation to achieve the desired finish before coating or assembly.

07. ELECTROPLATING

Copper, nickel, and chrome plating are applied using in-house facilities to enhance corrosion resistance, durability, and appearance.

08. FINAL QUALITY INSPECTION & DISPATCH

Every component undergoes rigorous quality inspection before being securely packed and dispatched with complete documentation to ensure safe and timely delivery.

INDUSTRIES WE SERVE

Sanitary Ware &
Bathroom Fittings

Pipe Fittings

Electrical Sectors

Automotive &
Automobile Parts

Gas Fittings &
LPG Systems

Hardware &
Construction Components

Industrial Machinery &
Applications

Surgical Instrument
Components

Precision Engineering
Components

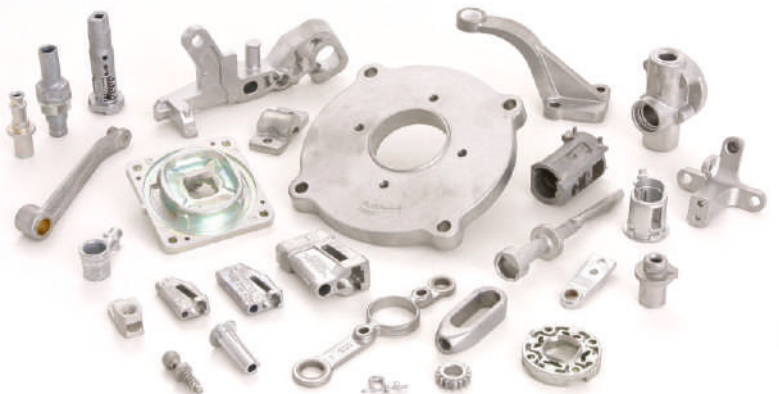

BRASS COMPONENTS

COPPER ALLOY COMPONENTS

ZINC DIE CAST COMPONENTS

THERMOSTATIC

ZINC DIE CASTING

BRASS COMPONENTS FOR WATER & GAS

Brass Compression Fittings

BRASS COMPONENTS FOR WATER & GAS

Ball Valves

Gate Valves

Ball Forged Parts

Check Valves

Brass Compression Fittings

CUSTOMISED BRASS COMPONENTS

+ BRASS HEX MALE & FEMALE CPVC INSERTS

+ BRASS MALE & FEMALE UPVC INSERTS

SIZE	½" to 4"
GRADE	All copper based alloys of brass and special grade as per customer requirements
THREAD	BSP, BSPT, NPT, NPTF, ISO METRIC, BA, BSW, UNC, UNF, UNEF
FINISH	Natural, chrome, nickel or any as per customer requirements

+ BRASS MALE PPR INSERTS

+ BRASS FEMALE PPR INSERTS

SIZE	½" to 4"
GRADE	All copper based alloys of brass and special grade as per customer requirements
THREAD	BSP, BSPT, NPT, NPTF, ISO METRIC, BA, BSW, UNC, UNF, UNEF
FINISH	Natural, chrome, nickel or any as per customer requirements

+ BRASS HEX NIPPLE

+ TANK CONNECTOR

+ CP FITTINGS

+ BRASS / CP TEE & ELBOW

+ HOSPITAL PIPE BRACKETS

+ BRASS HOSE COLLAR

+ PEX FITTINGS

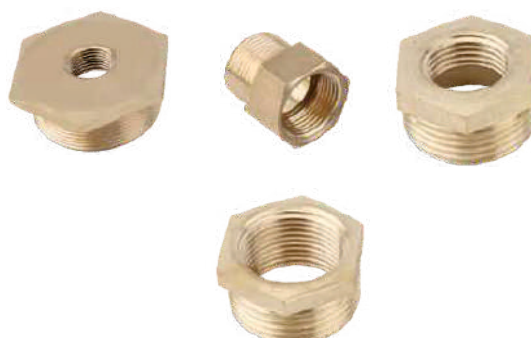

+ COMPRESSION FITTINGS

+ BRASS UNION

+ BRASS BUSH

+ HEX NUT

+ TAPER NUT

+ BRASS SOCKET

+ BRASS REDUCER SOCKET

+ BRASS SEAT

+ PREMIX &
GLASSY

+ BRASS
NIPPLE

+ BRASS
LEG

+ WATER METER
